A photograph of an industrial facility, likely an oil refinery or gas processing plant, at night. The scene is illuminated by several tall, slender streetlights with glowing yellow-orange lamps. The facility itself is a complex of dark metal structures, pipes, and scaffolding, with some areas lit up by internal lights, creating a stark contrast against the dark sky. The overall atmosphere is industrial and somewhat somber.

BEYOND BORDERS

An abstract digital background with a dark blue color palette. It features a grid of small, light blue circles and lines, resembling a data visualization or a network diagram. The circles are arranged in vertical columns, and some lines connect them, creating a sense of flow and connectivity. The overall effect is futuristic and technological.
